

HAZOP Leadership training for GC

Chapter 6 – Facilitator skill

Technical Safety Service Division (Q-TS-TS), 1 - 3 November 2021

Table of content

- ☐ Effectiveness of PHA/HAZOP Meeting
- ☐ Decision making
- ☐ Role of facilitator
- ☐ Active listening

Chapter 6-1

Effectiveness of PHA/HAZOP Meeting

**HAZOP Leadership
Training Course**

Hidden Cost of Poorly PHA

- ☐ Study goes shorter or longer than necessary
- ☐ Unnecessary recommendation are generated
- ☐ Significant hazards may be missed or dismissed
- ☐ Team demoralization and lack of “buy-in” may occur
- ☐ Unhappy management
- ☐ Missed operability improvements

Common component of an effective meeting

- ☐ Agreement on scope
- ☐ Agreement on method
- ☐ Roles understood by all
- ☐ Someone in charge:
 - Directing workflow
 - Creating a productive environment
 - Controlling the 'output'

Ideally, the person in charge has no direct stake in the conclusions/outcome from the meeting

- ☐ Expertise was fully utilized
- ☐ Promote open discussion
- ☐ Team commits to the PHA/HAZOP output/conclusions

Chapter 6-2

Decision making

**HAZOP Leadership
Training Course**

Way a HAZOP leader can get decisions made

Increased Delegation/Facilitation
↓

1. Decide and tell team
2. Get input from a few team members and decide
3. Consensus decision
4. Decision delegated to team, with leader establishing process

Importance of Consensus

- ☐ Usually results in better decisions
- ☐ Team more committed to conclusions and better able to 'sell' them later
- ☐ No 'corridor politicking' by the disgruntled
- ☐ Fewer confrontations in meetings
- ☐ Win-Win situation

“The above can be difficult to achieve when dealing with an EPCC and an Owner”

Chapter 6-3

Role of facilitator

**HAZOP Leadership
Training Course**

Role of leadership and facilitator

HAZOP Leadership Training Course

- ☐ Establishes ground rules
- ☐ Ensures adherence to roles
- ☐ Fanatically attentive to meeting process, content, and schedule
- ☐ Creates and rigorously maintains a “safe” workshop environment
- ☐ Remains as neutral as possible; contributes ideas as a member, not as a leader
- ☐ Maintains high energy level
- ☐ Keep the process moving forward (lobbies for more time, if needed for a quality output)

Role of leadership and facilitator cont.

HAZOP Leadership Training Course

Progressive role of HAZOP leader

Trainer

Team Builder

Facilitator

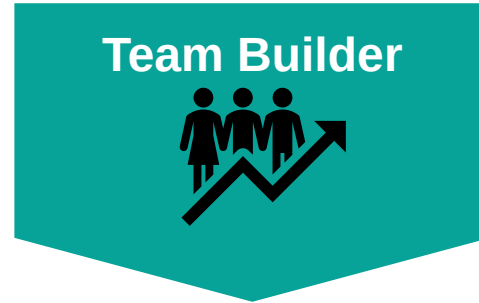

Editor

Role of facilitator cont.

HAZOP Leadership Training Course

Progressive role of HAZOP leader

Trainer

- ☐ Train the team in the technique
- ☐ Let the group create the ground rules
- ☐ Explain the leader function
- ☐ Contribute ideas initially - help guide the team HAZOP patterns
- ☐ Phrase technical contributions as questions

Role of facilitator cont.

HAZOP Leadership Training Course

Typical HAZOP ground rule

1. Start on time and End on time
2. Take breaks regularly to maintain high team energy
3. All idea are worthy/No bad ideas
4. Safe environment
5. Everyone contributes
6. Do not design solution in HAZOP meeting/Do not design it here
7. Take conflicts outside the workshop
8. Phones on silent/vibrate/off
9. Advise of any absence

Supplementary gound rule

1. Diversity is good
2. Present your view but avoid arguing for them
3. Listen to other and look for compromise
4. Do not change your view to avoid conflict

Role of facilitator cont.

HAZOP Leadership Training Course

Progressive role of HAZOP leader

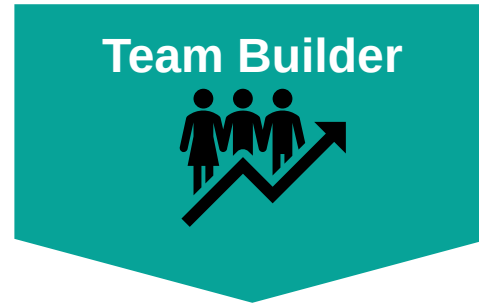

Team Builder

- ☐ Get everyone used to contributing by going around the room on “causes” – difficult to do!
- ☐ Call on people with specific expertise to provide input to the issue at hand
- ☐ Encourage, on occasion
- ☐ Encourage participation by direct question (e.g., “John, do you see any other consequences here?”)
- ☐ Ask people to explain further if the point is not clear
- ☐ Repel all attacks (gently at first) and get to a “safe environment”

Role of facilitator cont.

HAZOP Leadership Training Course

Progressive role of HAZOP leader

Facilitator

- ☐ Does not evaluate others' ideas, but refers them to the team
- ☐ Does not abuse facilitator's power
- ☐ Uses flip charts to capture issues not documented by scribe (can also use an electronic 'parking lot' list)
- ☐ Remains as neutral as possible (unless required to 'step in')
- ☐ Deals with difficult personalities

Maintain the energy level

HAZOP Leadership Training Course

- ☐ Get up and walk around the room
- ☐ Keep up the pace of the PHA/HAZOP
- ☐ Call on people by name with open-ended questions:
Example : Mary, what are some more safeguards for this?
- ☐ If group gets stuck, circle the room until everyone gives you their attention, then recap
- ☐ Listen
- ☐ Do not cut anyone off
- ☐ Point out progress: reward group for milestones, but do not lie
- ☐ Use humor

- ❑ Complete Attention

Give full undivided attention and let them know you appreciate what others are saying. This will encourage them to contribute and say more. Thank them for their input.

- ❑ Paraphrasing

Shows that you are listening because you can repeat in your own words what they have been saying and you can check your understanding of what has been said

- ❑ Summarizing

Like paraphrasing, it enable you to establish and confirm the main substance or key elements of a message

More facilitator TIPS

HAZOP Leadership Training Course

- ❑ Encourage ideas with open palms
- ❑ Regain focus by moving to the middle of the room, or next to the scribe, and summarize
- ❑ Repeatedly make eye contact with everyone
- ❑ Do not answer questions, or respond directly to statements, but rather bounce them back to group
- ❑ Move flow along by stepping in at the right moment, “Thanks Jill Jack, what thoughts do you have on the consequences here?”
- ❑ Avoid negative body language:
 - Do not roll your eyes or shrug when someone proposes an idea
 - Do not turn your back on someone unintentionally
