

## Mechanical Equipment List

Doc No. **RB-4410-PID-00-002** Rev B - feeds the electrical load list

| Tag      | Description                                       | Area | Installed / motor power | Class                   |
|----------|---------------------------------------------------|------|-------------------------|-------------------------|
| CR-2101  | Primary Gyratory Crusher                          | 21   | 1,000 kW                | Crusher                 |
| ML-3101  | SAG Mill                                          | 31   | 22,000 kW               | Grinding Mill           |
| CR-3102  | Pebble Crusher                                    | 31   | 750 kW                  | Crusher                 |
| ML-3201  | Ball Mill                                         | 32   | 22,000 kW               | Grinding Mill           |
| PP-3201A | Cyclone Feed Pump (A/B duty, C standby)           | 32   | 1,600 kW                | Centrifugal Slurry Pump |
| CY-3201  | Cyclone Cluster                                   | 32   | -                       | Hydrocyclone            |
| FC-4101  | Rougher Flotation Tank Cells (FC-4101 to FC-4107) | 41   | -                       | Flotation Cell          |
| ML-4201  | Regrind Mill (vertical stirred)                   | 43   | 3,000 kW                | Grinding Mill           |
| FC-4301  | Cleaner Flotation Column                          | 43   | -                       | Flotation Column        |
| TK-4501  | PAX Xanthate Mixing Tank                          | 45   | -                       | Reagent Tank            |
| TK-4511  | Frother Storage Tank                              | 45   | -                       | Reagent Tank            |
| TK-4521  | Milk-of-Lime Tank                                 | 45   | -                       | Reagent Tank            |
| TH-5101  | Concentrate Thickener                             | 51   | -                       | Thickener               |
| PP-5101A | Concentrate Thickener Underflow Pump              | 51   | 75 kW                   | Centrifugal Slurry Pump |
| FP-5101  | Concentrate Filter Press                          | 51   | -                       | Filter                  |
| TH-6101  | Tailings Thickener                                | 61   | -                       | Thickener               |
| PP-6101A | Tailings Pumps (3 stages in series, PP-6101A/B/C) | 61   | 3 x 2,000 kW            | Centrifugal Slurry Pump |
