

Safety Data Sheet Summary - Potassium amyl xanthate (PAX)

Site summary for demonstration. Refer to the supplier SDS for the authoritative document.

SDS sections

Parameter	Value
1. Identification	Potassium amyl xanthate (PAX); use: TK-4501 / TK-4502, collector
CAS No.	2720-73-2
Formula / type	C6H11KOS2
2. Hazards identification	Self-heating solid; decomposes (moisture, heat, acid) releasing carbon disulfide (CS2) - highly flammable, toxic; LEL 1.3 %
4. First aid	Remove to fresh air; flush eyes and skin with water for 15 minutes; seek medical attention.
5. Fire fighting	Dry chemical, CO2 or foam. Do not use water jet on burning xanthate.
7. Handling and storage	Store cool and dry, away from acids and ignition sources; keep containers closed.
8. Exposure controls	Local exhaust ventilation; chemical goggles; nitrile gloves; respirator where exposure limits may be exceeded.
